24/7 Campaign with a start date and no end date (ongoing)

These types of Prayer Campaigns never end! Ideal for when what you are interceding for is continuous or needs prayer on an ongoing basis.

Examples:

- Praying over a specific location: Country, State, City
- Praying over a specific People Group
- etc.

Ramadan Template

This template uses the fixed start and end dates Prayer Campaign type and is a 30-day campaign designed for mobilizing prayer for Muslim peoples and locations during the month of Ramadan.

It will be created and automatically set the start and end dates to this year's ramadan dates. If the dates are different in your region you can change them afterwards.

The Ramadan Template comes with a specialize landing page and customized communication throughout the campaign.
