Campaign Goals

Prayer Campaigns · https://prayer.tools/docs/campaign-goals/

We first built this tool to mobilize prayer for countries during the month of Ramadan.

Our goal was to cover with prayer every single minute of each day during the whole 30 days of Ramadan.

For this we ask people all over the world to come pray with us so that the morning hours can be covered by people in other time zones.

This 24/7 coverage campaign goal is powerful, but is ultimately very hard to accomplish.

In the campaign settings you can now choose what kind of campaign goal you want to shoot for. The options so far are

- **24/7 daily coverage**
- **Custom # of hours every day**

24/7 daily coverage

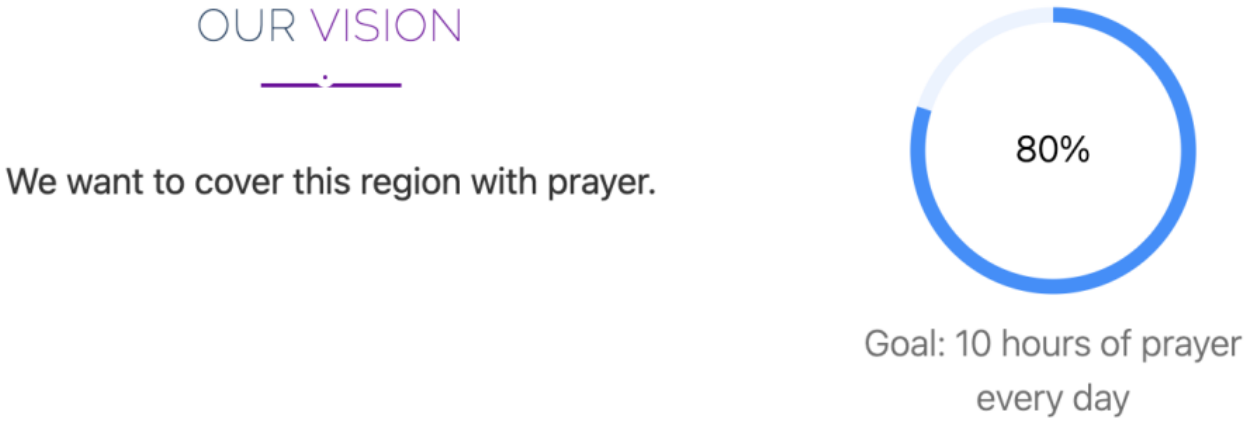

Try to cover every single minute of the campaign with prayer.

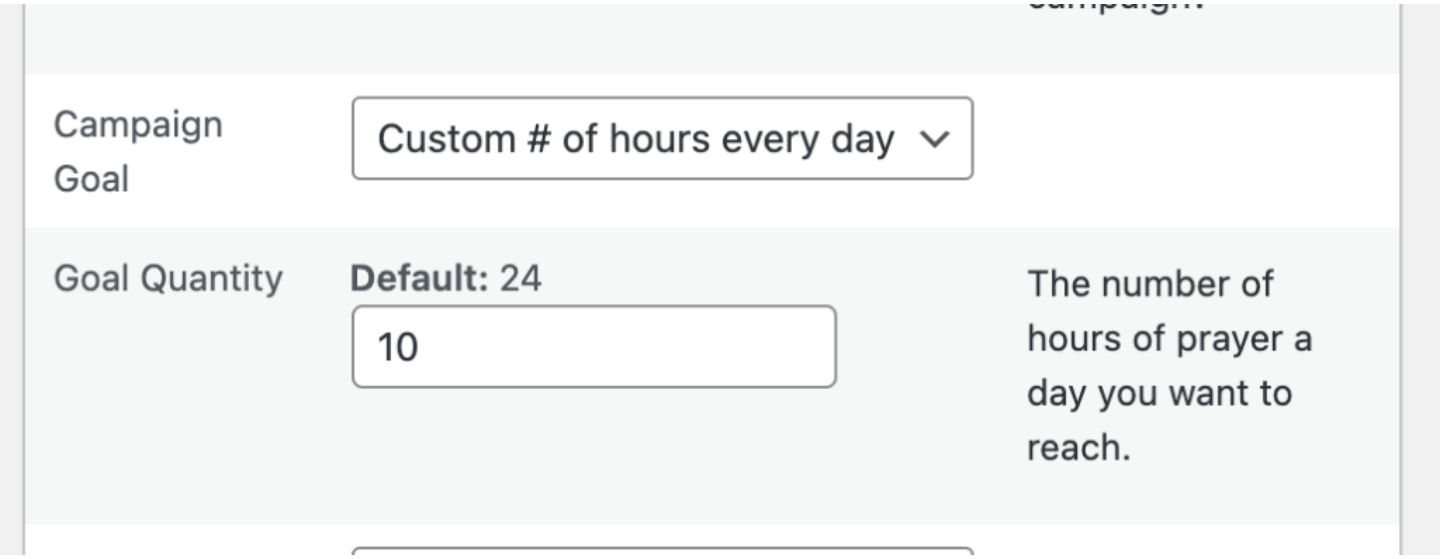

Custom # of hours every day

Choose the number of hours each day you want to aim for.

People can sign up to pray at the same time and everyone's time will be counted towards the goal.

In the campaign settings, find the Campaign Goal and the Goal Quantity settings. Here you can set the number of hours you want to aim for.

Campaign Goal
Custom # of hours every day
Goal Quantity
Default: 24
10
The number of hours of prayer a day you want to reach.
